Water Storage Systems

Hendic BV, supplier of water storage systems used in agriculture, horticulture, aquaculture and industry. Storage systems such as steel tanks, reservoirs, plastic tanks/containers and temporary storage. These systems are delivered not only in the Netherlands but all over the world. At Hendic we can provide you with storage tanks customised to local requirements and conditions, the successful Hendic galvanized steel plate water tank has become a permanent asset in worldwide glasshouse horticulture.

Silos/basins

A Hendic galvanized steel tank or reservoir can be deployed for almost any storage problem. So (of) Thus you are assured of high quality, flexibility, simple assembly, very competitive prices, and clear information.

High quality steel tanks/silo's:

The use of materials of a constant high quality allows us to guarantee a proper end product. For panels 1 mm. thick and above, S350 tensile steel with 450 grams galvanized coating per square meter both sides giving increased life to first maintenance. The silo's can be supplied with a very high quality powder coating giving added protection to manure, seawater and acids.

Diameters from 1,86 m. up to 40.5 m. and till 5,33 m. height.

High quality Reservoirs/lagoons:

We supply and install worldwide to unprecedented large sizes liners, produced up to 10,000 sq. m. prefabricated at one large piece with clear rollout and installation drawings on the package.

At our DELAFLEX materials we give 15 year warranty on UV and on the welding.

Flexibility

Hendic supplies a storage tank or basin customized to local requirements and conditions. A water tank for horticultural purposes in the cold northern region of Scandinavia has to meet other requirements than one used with high temperatures, such as central Africa.

Competitive prices

Hendic supplies the steel water tanks and storage systems for very attractive prices.

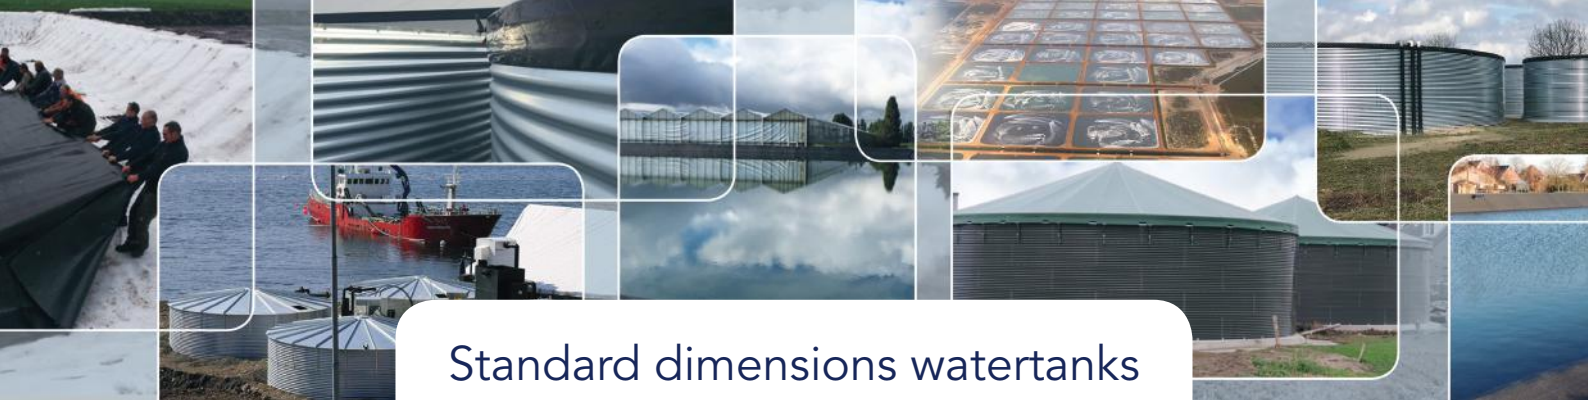

Hendic are renowned for:

- Highest quality.**
- Fast delivery.**
- Competitive prices.**
- The best service.**
